

Aircraft Construction and Maintenance

Members of Chapter 800 of the Experimental Aircraft Association conducting weekly build sessions at the Mack Mesa Airport expect **HAWK** Aviators members to help and learn all that these craftsmen can teach. Youth who participate may use construction hours as credits against future aircraft rental for flight instruction. Adults with construction or maintenance experience or skills are encouraged to visit a Saturday build session and consider becoming a mentor.

HAWK Aviators is a Colorado non-profit corporation certified by IRS as a Section 501(c)3 educational charity. Donations of cash, parts, supplies and flyable and non-flyable fixed-wing aircraft are fully tax deductible and very much appreciated. Memberships are available for \$35 per year for adults and \$10 for children ages 10-17.

Visit our website at www.hawkaviators.org to donate, view our projects or programs and contact us.

Flight Instruction

HAWK Aviators operates a donated Piper Cherokee 140 which we restored with the help of West Star Aviation to be our flight trainer. Youth who meet our qualifications for flight privileges may use this aircraft to pursue FAA certificates at below market hourly rates. **HAWK** also helps locate flight instructors and conducts twice-monthly ground school classes. Youth who assist with the maintenance of this aircraft receive credit against rental costs.
